

IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF NEBRASKA

NL ENTERPRISES, LLC,

Plaintiff,

vs.

UNITED PACIFIC PET, LLC,

Defendant.

4:15CV3163

ORDER

For the reasons stated on the record, (Filing No. 104), UP's objections to NL's discovery (as outlined in the attached chart), are overruled in part and sustained in part as follows:

- 1) As to Production Request 24 and 40, and Interrogatory No. 21, the parties have reached a stipulation and no further assistance is needed from the court.
- 2) As to remaining discovery disputes outlined by the parties, for the timeframe beginning in 2013 and to present, United Pacific Pet (UP) shall:
 - a. Produce its quarterly financial statements;
 - b. Investigate whether any documents exist which will aid in determining the cost of goods sold; direct costs; overhead costs; and indirect costs associated with UP's sale of NL products specifically. If such documents exist, they must be promptly produced. If they do not exist, UP shall provide a statement, signed under oath, stating that such documents do not exist.
 - c. Produce all documents underlying UP's determination of its gross profit margin and net profit margin for the sale of NL products, including all documents underlying UP's 24.5% profit margin calculation, along with any other documents useful in determining its profit margins for the sale of NL products, including documents reflecting purchases and sales of

NL products, and the sales and overhead costs incurred and specifically attributable to the sale of NL products.

- d. Provide an interrogatory response, signed under oath by UP, explaining the methodology used by UP to track profit margins for the sale of its products in general, and if a different method was used for NL product sales, a description of the method used as to NL products specifically.
- e. To the extent not already disclosed, produce UP's monthly sales reports for NL products for the time period from 2013 to present.
- f. For each pet food manufacturer or other individual or business that UP has begun a distribution relationship with since November 25, 2015, identify (broken down by month) the amount of product UP has ordered/purchased since November 25, 2015. **All documents produced in response to this subparagraph 2(f) shall be disclosed to only counsel and the parties' specially retained expert witnesses** until such time as the court both: i) determines that failure to mitigate can be raised as a defense to a claim for breach of an exclusive distributorship contract, and ii) enters an order specifically permitting disclosure to NL itself.
- g. Produce all documents reflecting the projection of sales, forecasts, or estimations of all of UP's proposed purchases and/or sales of Nature's Logic products.

September 16, 2016.

BY THE COURT:

United States Magistrate Judge

NL Enterprises, LLC v. United Pacific Pet, LLC, Case No. 4:15-cv-03163-JMG-CRZ

To assist the Court in more efficiently addressing the parties' discovery dispute(s), the parties shall meet and confer, and jointly complete the following chart. The purpose of this chart is to succinctly state each party's position and the last compromise offered when the parties met and conferred. The fully completed chart shall be e-mailed to chambers at zwart@ned.uscourts.gov.

The moving party is: Plaintiff/Counterclaim Defendant NL Enterprises, LLC

The responding party is: Defendant/Counterclaimant United Pacific Pet, LLC

UPP's counsel represented that the information would be contained in the "financial information" to be provided by UPP. Upon receipt of the "financial information" on 8/24/2016 – the first time NL counsel saw what "financial information" was going to be produced - it was discovered that the requested information was not included in the four pages produced.	The Defendant's electronic ledger is merely being requested to harass the Plaintiff. Each check, credit, debit, etc., since January 1, 2011, which have no relationship to this litigation or to the Plaintiff, is clearly an inappropriate request. The financial statements produced prior to January 1, 2016 and thereafter demonstrate the Company's profitability and financial condition (UPP 001236-UPP 001239).

UPP continues to object as such information is unduly burdensome given its limited probative value and is confidential and proprietary. NL has no need to know sales reports for non-NL product lines.	This information is necessary in order for NL's expert to calculate lost profits. The few documents provided by UPP show that UPP's net profit margin is less than 1% of its cost-of-goods sold. However, UPP's expert has asserted a profit margin of 24%, and NL's expert needs to compare the profit margin by product to determine how UPP's expert reached his conclusions, since his report does not indicate how that was done. UPP's claimed damages / lost profits	Withdraw objections and produce all responsive documents because requested documents are relevant and necessary to calculation of lost profits.	UPP objected that the Request was "overly broad, unduly burdensome, not reasonably limited in time or scope" and said documents constituted trade secret or are commercially confidential and proprietary. UPP's mitigation of damages	UPP agreed to produce responsive documents upon entry of protective order, which has now been entered.	UPP continues to object to said Interrogatory as overbroad and unduly burdensome. Moreover, there is no relationship between the information sought in Interrogatory No. 7 and the injury suffered by NL's breach of contract.	UPP agreed to produce responsive documents upon entry of protective order, which has now been entered. NL has raised the defense of failure to mitigate in response to UPP's claims. UPP's ability to devote efforts to other pet food lines and generate sales for those lines are directly related and relevant to UPP's mitigation efforts.	UPP has identified all of its product lines to Plaintiff. Mitigation does not apply in a breach of an exclusive distributorship case.
